Alforex Seeds is a national company backed by Corteva Agriscience. Our name stands for alfalfa and forage excellence. We think you should expect more from your alfalfa and forage crops and are leading the way in providing one of the industries most complete lineups of alfalfa genetics including: Hi-Gest, Hi-Ton, Hi-Salt, HarvXtra and Roundup Ready. In addition, we also have a complementary lineup of sudangrass, sorghum, forage grasses, clovers, and mixtures. We have technical experts and a sales team that focuses solely on alfalfa and forage which can help you develop the best solutions for your farm. Serious growers plant Alforex Seeds.
