wlalfafas.com

Our goal is always the same: to create high-quality seed that delivers better yields for growers. As conditions evolve, we have the infrastructure, experience and creativity to meet the world's growing demands. For over 65 years, W-L Alfalfas has been offering alfalfa varieties built on a strong foundation of research and development to help farmers reach and exceed their crop potential. W-L Alfalfas offers the newest alfalfa technology available, HarvXtra® alfalfa with Roundup Ready® Technology, Roundup Ready® Technology alfalfa and conventional alfalfa.

*Forage Genetics International is a proud sponsor of the
World Alfalfa Congress.*
